Call for applications for the Iuav-Tongji University double degree mobility scheme
In 2017 Iuav signed two agreements with Tongji University in Shanghai.

The Agreements can be downloaded from the web page Iuav:
home>ateneo>chi siamo>relazioni internazionali>convenzioni stipulate con istituzioni extra europee / Cina
How Iuav students can participate 1/4

According to this agreement Iuav selects students who could carry out a mobility at Tongji University for 10 months during their second year of Master degree, approximately between September and June/July.

During this mobility at Tongji, Iuav students will attend courses and take exams that will be agreed with the Iuav tutor and the Tongji tutor. Furthermore, during the mobility Iuav students will prepare their thesis. When they return to Iuav these exams taken at Tongji will be recognized in their Iuav career.

Iuav students with Chinese citizenship can not apply for a mobility in China. Students which applied for an Erasmus Plus mobility (study and/or traineeship) can not apply for an extra EU exchange.

In addition, Iuav students will discuss their thesis written in English in China and at Iuav possibly online, always following the instructions of the Iuav tutor and the Tongji tutor. At the end they will have the Iuav Master degree and the Tongji degree.
How Iuav students can participate 2/4

The IUAV selection is published every year on the website between January and February. Candidates will have to apply on Spin.

Candidates will be selected on their academic merit - calculated on the basis of the grade of their bachelor degree - and on the basis of an English language test at a centre affiliated with Iuav that will be communicated with the selection call. A motivational letter must be enclosed with the application.

Towards Summer, Tongji University will then inform you if you have been accepted and when you have to arrive at Tongji for the beginning of the academic year.

Iuav will send to Tongji University the nominations of the selected students and then the winner will be contacted about the application by Tongji. The application must be provided according to the deadlines that will be provided by the foreign university.

Towards Summer, Tongji University will then inform you if you have been accepted and when you have to arrive at Tongji for the beginning of the academic year.
How Iuav students can participate 3/4

Iuav will provide a mobility grant of €700.00 per month up to 10 months, the period is usually from September to June. In addition, Iuav provides an accident insurance. It is the student's responsibility to have health insurance autonomously or buy health insurance offered by Tongji University.

Iuav students at Tongji benefit of the dual enrollment. Any fees must be paid to IUAV to maintain the enrollment in their second year. Iuav students do not have to pay tuition fees to Tongji University.

Tongji University may provide accommodation or help in finding accommodation in Shanghai. It is the student's responsibility to meet the deadlines of the foreign university to obtain visas autonomously from the Chinese embassy to enter and stay in China as a student.

Who receives grant from the IUAV Right to Study Office or reduction of IUAV fees, must keep in touch with the IUAV Right to Study Office to maintain these benefits. IUAV International Mobility Office is not in charge for this matter.

Iuav will provide the grant only for physical mobility, e.g., 4 months attendance in presence in Shanghai and 5 months remotely, the grant will be for 4 months. When arrived in China, Tongji University provides a certificate of arrival that the student will send by email to our Service and an advance of the grant equal to 80% will be issued.
How Iuav students can participate 4/4

The mobility to Tongji University is subject to the decisions of the Chinese government and Tongji University. It could be that there are still other restrictions due to the Covid pandemic so Iuav students cannot go to China, they can only attend classes online.

It is possible that during the stay at Tongji University the permit for study in Italy expires, it is student’s responsibility to come back to the Police Headquarter in Marghera to renew the permit for study at Iuav.

To renew the permit of study needs some days of stay in Venice, it is student’s responsibility to demonstrate to the Italian Police to have an accommodation in Venice for your course of studies at Iuav even if he/she benefits of a mobility in Shanghai.
