

# ARCHITECTURE AND CITIES AT A CROSSROADS BETWEEN SOCIAL, CULTURAL AND ENVIRONMENTAL SUSTAINABILITY

**24th september 2021**

**Venezia, Tolentini,**

**aula magna, 9.30 am > 2 pm**

# Architecture and Cities at a Crossroads between Social, Cultural and Envi- ronmental Sustainability

**international conference**  
**24th september 2021**  
**Venezia, Tolentini,**  
**aula magna, 9.30 am 2 pm**

The Royal Norwegian Embassy in Rome, in collaboration with Università Iuav di Venezia, the National Museum of Norway, Innovation Norway, Design and Architecture Norway and the National Association of Norwegian Architects, on the occasion of the second opening event of the Architecture Biennale 2021, organises an international conference on works and design researches for the sustainability of architecture and cities. The aim is to develop a dialogue between Norway and Italy on this issue, involving representatives of institutions, leading representatives of Norwegian architecture, Iuav university lecturers and researchers. Moreover, the conference involves Venice, the city that combines wellbeing and beauty, and stands today as a world-class centre for a scientific and cultural debate on sustainability issues.
