

ELEMENTS - STREAM OF CONSCIOUSNESS

lecture performance

Muslin Brothers duo of fashion practitioners established in 2011 in Tel Aviv and currently located in Brussels, where they speculate about the way personal and social systems are shaped through clothes. The studio explores and expands fashion practice, overlapping between performance, installation, narratives, and wearables.

The lecture performance is a guided tour unfolding experiences, stories, and poetics, followed by screencasting of images and videos, all travelling through Muslin Brothers body of research.
