Amerigo Alberto Ambrosi, Amina Chouairi, Cristina Catalanotti**

Tutors **Broggini Federico** Roma Tre, **Cauciello Davide** Latitude,
Conti Francesco Unicam, **Cristiano Silvio** Unifi, **Giacomelli Matteo**
Unicam, **Metta Annalisa** Roma Tre, **Ranzato Marco** Roma Tre,
Ruggeri Riccardo Roma Tre, **Rizzuto Flavia** Roma Tre, **Soares Joao**
Uni Evora, **Stachter Suzanne** ENSA Versailles, **Trabucco Isabella** Unifi

The aim of the summer school is to get to know and interpret the food system of the Venice Lagoon, in order to identify a possible model for a Food Atlas of this territorial context. The summer school will be held in collaboration with the European inter-university network NO-CITY, which explores the socio-ecological effects of planetary urbanisation.
