Here are the three questions you are required to answer when recording your video.

Please respect the following requirement:

- maximum length 3 minutes
- maximum size 50mb

1. Why have you chosen Italy, Venice and this degree programme for your graduate studies? Are there any Italian buildings or architects you find particularly interesting or inspiring? Do you think this degree programme will give you the chance to develop a unique critical approach that can be applied to architecture on a global scale? Please, give explanations for your answers.
2. In your previous academic studies, have you come across any architect, building or architectural work that has been especially interesting or inspiring to you – either in terms of project process, or in the use of materials, etc. – and why?
3. What relevance do you think should be given to climate changes, demographic dynamics and technological development in a master's degree in architecture? Why?
