As an alternative to the declaration of value, a certificate of comparability issued by the ENIC-NARIC centres may be submitted. If it is not possible to submit the declaration of value or the certificate of comparability by the deadline referred to in paragraph 2 above for reasons arising from the timing of the issuance of the afore-mentioned documents at the diplomatic-consular representations or at the ENIC-NARIC centres, the candidate must submit a document proving the start of the process related to the issuance of the afore-mentioned declarations;
 - for degrees awarded in a country belonging to the European Higher Education Area, Diploma Supplement (if provided for by the university that awarded the degree) or, alternatively, certificate of comparability issued by ENIC-NARIC centres.

5 Candidates who obtain their degree within the deadline referred to in paragraph 1 above shall promptly submit suitable self-certification of their actual degree achievement

specifying the university, course of study, date and grade obtained. Failure to obtain the degree shall result in the cancellation of any enrolment made.

6 In the event of renunciations by eligible candidates, as many eligible candidates will be admitted to the course according to the order of the ranking list. In the event of a tie, places with a scholarship will be assigned on the basis of economic situation as indicated in art. 9 paragraph 1 below.

7 For the purposes of crediting scholarships, any reimbursements and any other credit the University should provide to students, the Iuav Card may be activated by following the instructions on the following web page <http://www.iuav.it/studenti/procedure/-carta-aten/>

Article 9 (scholarships and other benefits)

1 The study grant, amounting to €16,243.00 per year gross of social security contributions, is awarded according to the order defined in the admission ranking list. In the event of equal merit, the evaluation of the economic situation as determined in accordance with current legislation on the right to study shall prevail.

2 In order to be awarded and to maintain the scholarship, doctoral students holding scholarships must not have an annual income in excess of the annual amount, provided for by current legislation, of the scholarship itself. The University reserves the right to verify what is declared by doctoral candidates in this regard.

3 The grant will be subject to the payment of contributions to the separate INPS management scheme to which you must apply.

4 Scholarships shall have an overall duration of at least three years and shall be renewed annually upon positive verification of the completion of the programme of activities planned for each year.

5 Payment of the grant shall be made in monthly instalments presumably starting in November 2023. The November instalment will also include the monthly instalment for the month of October.

6 The amount of the scholarship is increased by fifty per cent, for a total period not exceeding twelve months, for the performance of research activities abroad authorised by the Board of teachers. This period may be extended up to a total maximum of eighteen months for doctoral programmes that are co-tutored with foreign subjects. The board of the doctoral school will allocate the funding by evaluating the motivated requests of doctoral students through criteria established from time to time on the basis of the funds available. The increase for foreign residence cannot be used in the doctoral student's country of citizenship, residence and domicile.

7 To carry out research activities in Italy and abroad, in addition to the scholarship, a budget of no less than ten per cent of the amount of the scholarship is guaranteed to the doctoral student, with or without a scholarship.

8 In cases where a scholarship is renounced before the start of the course, it is reassigned according to the order of the ranking. In the case of renunciation of the scholarship after the beginning of the course, renunciation of the continuation of the course by a doctoral student holding a scholarship, or of exclusion of a doctoral student holding a scholarship, the latter shall be reassigned in the residual portions to a doctoral student enrolled without a scholarship in the same course according to the order of ranking. Reassignment only takes place if the renunciation or exclusion occurs within the transition from the first to the second year.

9 Doctoral scholarships may not be combined with other scholarships for any reason whatsoever, with the exception of those granted by national or foreign institutions for the purpose of supplementing the doctoral student's research activities with stays abroad. Doctoral students who have already received a scholarship for a doctoral course may not receive it a second time for the same reason.

10 Possession of the scholarship is incompatible with possession of a research grant and postgraduate scholarships for research activities.

Article 10 (regional tax for the right to study)

1 All PhD students are required to pay the regional tax for the right to study and the stamp duty paid electronically. For the academic year 2023/2024 the amount of the regional tax for the right to study will be determined by the Veneto Region. To this amount must be added the stamp duty paid electronically in the amount of € 16.00.

2 Payment of the regional tax is due by the deadline indicated in article 8, paragraph 1 above. The instructions for requesting the reduction based on the economic situation given by the Equivalent Economic Situation Indicator (ISEE - benefits for the right to university study) and by the Equivalent Financial Situation Indicator (ISPE) will be available on the website www.iuav.it in the pages dedicated to study support.

3 Failure to indicate one's economic situation will be tantamount to renouncing the benefits of a reduction in the regional tax, which will therefore be due at the maximum rate.

4 All payments must be made through the PagoPA system by accessing the "payments" section of the reserved area of the Sportello Internet and choosing between paying online (by credit card or bank transfer) and paying in person by printing out the payment notice to be presented at one of the authorised processors or at one of the credit institutions participating in the PagoPA system (tobacconists/receivers belonging to the SISAL SuperEnalotto circuit).

5 By 30 September of each year, with regard to enrolment in the second or third year of the course, doctoral students are required to pay the regional tax for the right to study and the stamp duty. Enrolment in the second or third year is to be considered conditional until the admission to the second and third year has been formally established pursuant to art. 13 paragraph 12 of the University Regulation on doctoral courses and doctoral research. Failure to pay for enrolment in the second and third years by the above-mentioned deadline will be considered as renunciation of the course and the grant amounts paid in the last academic year of enrolment will have to be refunded as indicated in Article 12 paragraph 2 below.

Article 11 (suspension and extension)

1 Suspension from the doctoral course for a maximum duration of six months is permissible on application for the following reasons:

- a) serious and documented illness;
- b) maternity, paternity, adoption and fostering, in accordance with the relevant legislation in force;
- c) serious personal and/or family reasons, duly documented;
- d) opportunities to pursue high-level work activities that enable the acquisition of skills relating to the doctoral training area.

2 The director of the school may, after consulting the scientific heads, authorise suspension from the course for reasons other than those set out in paragraph 1 provided that they are adequately documented.

3 For the duration of the suspension, the grant or other equivalent funding will not be paid, without prejudice to application of the parental protection rules set out in the relevant legislation in force. PhD students on parental leave therefore maintain their right to the grant.

4 At the end of the suspension period, the grant is paid upon resumption of the course attendance up to the total duration of the grant.

5 The request for suspension is assessed by the head of school, after consulting the coordinators.

6 The director of the school at the end of the absences referred to in paragraph 1 above shall determine, after consulting the scientific heads, whether to readmit the doctoral student during the year or to readmit them to the following cycle. The doctoral student readmitted to the following cycle is entitled to a scholarship reduced by the amount paid in the year in which the absence occurred.

7 For demonstrable reasons that do not allow the doctoral thesis to be submitted within the timeframe envisaged by the duration of the course, the board of teachers may, at the doctoral student's request, grant an extension of a maximum duration of twelve months, divisible into two periods of six months each, without any further financial burden.

8 An extension of the duration of the doctoral course for a period not exceeding twelve months may also be decided by the board of teachers for justified scientific needs, ensuring in such a case the corresponding extension of the duration of the scholarship with funds from the university budget, after deliberation by the board of trustees, on the proposal of the board of the doctoral school and after obtaining the mandatory opinion of the academic senate.

9 The periods of extension and suspension referred to in the preceding paragraphs may not exceed a total of eighteen months, without prejudice to specific cases provided for by law.

Article 12 (withdrawal and disqualification from the course)

1 If a doctoral student chooses not to continue the course, they shall notify the Director of the School in writing. If the doctoral student is the holder of a scholarship, they must repay the amounts paid for the current academic year.

2 Failure to enrol in the following year shall be considered as renunciation of the course and the doctoral student, if a scholarship holder, will be obliged to repay the amounts paid in the last academic year of enrolment if the board of teachers decides that they have failed to pass the profit tests for the transition to the following year.

3 In the event of failure to notify withdrawal from the course and failure to deliver the thesis by the deadline, the doctoral student shall be considered forfeited from the course and, if a scholarship holder, shall be required to repay the amounts paid in the previous academic year of enrolment.

4 Forfeiture is also ordered in the event of failure to pass the final examination. In this case the doctoral student is not required to repay the scholarship amounts paid in the previous year of enrolment.

5 Forfeiture is ordered by decree of the Rector.

Article 13 (incompatibility)

1 Enrolment on doctoral courses is incompatible:

a) with enrolment on other courses of study provided for by current legislation on university courses, subject to the provisions of Law no. 33 of 12 April 2022 about the simultaneous enrolment on two university programmes;

b) by awarding contracts, including at other universities or academic degree-granting bodies, for the performance of teaching activities governed by current legislation or by statute or internal regulations.

2 If the causes of incompatibility are not promptly removed, the doctoral candidate shall be excluded from the course as provided for in article 15, paragraph 5 c) below.

3 Doctoral students may carry out, as an integral part of their training project, subject to the authorisation of the board of teachers and without increasing the amount of the scholarship, tutoring activities, including paid tutoring, of students on degree and master's degree courses, as well as, within the limit of forty hours per academic year, tutoring activities of integrative teaching. For the activities referred to in this paragraph, doctoral students shall be paid grants in accordance with the relevant regulations in force.

4 The board of teachers may authorise the doctoral student to undertake paid activities that enable them to acquire skills relating to the doctoral training area, subject to an assessment of the compatibility of such activities with the fruitful pursuit of the training, teaching and research activities of the doctoral programme.

Article 14 (civil servants)

1 Pursuant to Article 12, paragraph 5 of Italian Ministerial Decree 226/2021, public employees may be admitted to a doctoral course benefit, for the period of the normal duration of the course, from the leave of absence provided for by collective bargaining or, if employed under public law, from extraordinary leave for study purposes, compatibly with the needs of the administration only if they are enrolled for the first time in a doctoral course, regardless of the disciplinary field.

In case of admission, public employees are admitted on condition that the administration where they are employed authorizes the unpaid leave for study purposes. The authorization needs to be given before the start of the Course

The right to the budget for research activities carried out in Italy and abroad as per Article 9 paragraph 6 above remains unaffected.

Article 15 (duties of doctoral candidates)

1 Admission to the doctoral programme entails an exclusive full-time commitment, and participation in all the planned training activities of both the doctoral programme and of the School is compulsory. **The official start of the course is 1 October 2023.**

2 For the performance of any limited work activities, a special authorisation request must be made to be transmitted at least ten days before the start of the activity.

The reporting will be performed through an online platform using the template provided;
- complete the required mandatory periods of study and research at the company (minimum six months) and abroad (minimum six months);
- guarantee the respect of the obligations in terms of communication and information as provided by the art. 34 of Regulation (EU) 2021/241, indicating in all the documents that the Programme is funded in the frame of the RRP, with explicit reference to the funding by the European Union and the NextGenerationEU initiative, including in the papers the EU logo, and also suitably share and promote the Programme – online and on social media – in line with what provided by the Communication Strategy of the RRP.
- respect the principle of not doing significant harm (DNSH) to environment, in accordance with Article 17 of Regulation (EU) 2020/852.

4 For admission to the following year and confirmation of the scholarship or other form of support, the doctoral candidate must complete the programme of activities planned for the previous year and pass the profitability tests established by the board of teachers.
