

CURRIE & BROWN MEETS IUAV STUDENTS

virtual company presentation

Currie & Brown is one of the world's leading physical assets management and construction consultancies, dedicated to advising clients in respect of the procurement, construction, management and utilization of their physical assets.

The company will have the opportunity to introduce itself to Iuav students of architecture and explain the internship opportunities they are now offering. Currie & Brown representatives will also highlight the technical and personal skills of the intern profile.

At the end of the presentation a representative of Career Service will explain the internship application process
