

EUROPEAN HACKATHON

2nd Edition

The Promotion and Orientation service offers the possibility to Iuav students to participate in the European Hackathon led by Gustave Eiffel University with the support France and AFIT France.

The programme will focus on: "How to support behavioral changes for more sustainable mobility?"

Participants will work in teams with students from other disciplines and countries, have the chance to deepen their knowledge with experts and make the final pitch to an international jury.

Registration to the European Hackathon by 13 January 2023

Informative webinars on 13 December and 10 January, 12.45 > 13.30
