

# CONTEXT THEORY

## workshop and seminar

Most practices are influenced by the context they arise from. From fashion to the wider spectrum of arts and crafts, the dialogue between the context and the product recalls the one between input and output. Slam Jam and Università Iuav di Venezia seminar series goes on to dig deeper in what the surroundings do to products, furniture pieces, artworks, buildings, and so on. International guests will explore their work with this assumption in mind, validating it or offering alternative angles.

The seminar is accompanied on Thursday, May 8, 2025, by a workshop for Fashion Design and Fashion Communication students.

Introduction by **Gabriele Monti** Università Iuav di Venezia
