

SHORES AND SEA IN DIALOGUE

MSP and LSI as Planning Drivers

12.5.2025
cotonificio
aula J
ore 16.30
online >>

As part of the course "An Introduction to Maritime Spatial Planning", the event will explore the complex interface between land and sea within the context of MSP and LSI as a key challenge and opportunity for integrated planning. Through both research and operational perspectives, the session will examine tools and approaches for analysis, planning, and governance that can help foster dialogue across coastal and marine domains, while minimising socio-ecological impacts.

Three distinguished speakers will bring complementary insights from international practice and academic research:

- **Marina Markovich** Senior Programme Officer at PAP/RAC – UNEP/MAP
- **Martina Bocci** Director at t-ELIKA
- **Alberto Innocenti** Associate Professor at University of Southern Denmark

Will discuss: **Francesco Musco, Micol Roversi Monaco, Fabio Carella, Daniele Brigolin, Denis Maragno**

Seminar organised within the framework of PRIN BeProCoasts - From Beaches to Coasts: towards an Integrated Protection of the Coasts Codice del Progetto: P2022WCTEW CUP: F53D23012100001 Finanziato dall'Unione europea – NextGenerationEU
