

MSP TALKS

towards maritime sustainability in the Mediterranean Sea and beyond

A series of talks with experts and scholars on coastal and marine ecosystems to provide insights and advancement in maritime spatial planning studies and practices. With a specific focus on nature conservation, land-sea interactions, maritime sectors transition and policy development.

The talks are organised within the course "An Introduction to Maritime Spatial Planning" thanks to the support of EU co-funded research projects **MEDIGREEN and INCORE-MED**.

Thursday, 8 January 2026 h 9.30>11.30 aula B1 (Terese)

Land-sea continuum hot spot of interactions

Alberto Innocenti University of Southern Denmark

Monday, 12 January 2026 h 14.30>16.30 aula J1 (Cotonificio)

Advancing Marine Spatial Planning worldwide: the role and impact of MSPglobal

Niccolò Bassan UNESCO-IOC

Tuesday, 13 January 2026 h 9.30>11.30 aula J1 (Cotonificio)

Integrate marine conservation and restoration objectives in MSP

Elisabetta Manea Laboratoire d'écogéochimie des environnements benthiques (LECOB), CNRS-Sorbonne Université (Banyuls-sur-Mer, France)

Organizers **Vittore Negretto, Davide Longato, Fabio Carella**

Discussant **Giulia Lucertini, Daniele Brigolin, Paolo De Martino, Folco Soffietti** and **Francesco Musco**.
