Odyssey, a project by g. olmo stuppia curated by Leonardo Ruvolo, will be presented on 26 March at 12:30 PM at Aula Magna Tolentini, Università Iuav di Venezia, as part of its Centenary programme. Supported by the PAC – Piano per l’Arte Contemporanea 2025 (Italian Ministry of Culture), the project engages the Università Iuav di Venezia across several dimensions of its educational and research mission. The press conference marks the launch of a three-stage journey – Venice, Naples, Potenza – exploring migrant memory and transmedial storytelling through sculpture, photography, film, sound and installation.
