Call For Abstracts

Third World Colloquium on Existential Posthumanism
14>16 October 2026
Università luav di Venezia, Venice, Italy

We invites contributions that explore posthuman coexistence as an ongoing process of refashioning and regeneration of relations, bodies, environments, information, and ways of living, beyond human exceptionalism, anthropocentrism, and fixed ontologies. Through the concept of (in)forming we would like to emphasize relations, process, adaptability, and the capacity for continual regeneration and refashioning.

Keynote Speakers (among others): **Francesca Ferrando** (NYU),
Roberto Marchesini (SIUA)
