

SBRAUS PROJECT

Closing event and final exhibition

10.3.2025
Cotonificio
aula R1
9.30 am

SBRAUS is a research lab that brings together students and researchers to explore innovative strategies for the revitalization of abandoned urban spaces. The project adopts a multidisciplinary approach to designing and planning sustainable and inclusive cities, with a strong focus on urban restructuring, ecological transition, and socio-cultural regeneration

The event will feature the Closing Event of the European SBRAUS project, including the Final Exhibition of the workshop held in Skopje.

Coordination

Francesco Musco, Linda Zardo Iuav

Researchers

Nicola Romanato, Vittoria Ridolfi (Iuav)

Partner Universities Representatives

Radmila Tomovska, MArch Adelina Fejza, MArch Fjolla Pustina
