

IN A LONELY PLACE

workshop with Marcos Morau

Throughout their career, both choreographically and in composition, Marcos Morau and La Veronal have distinguished themselves by a specific language; a lucid look at the combination of various languages that rub against each other and where movement is situated at the centre of the image. For this workshop we are going to work on two levels: from the methodology associated with movement to the composition of images, rhythms, environments and actions build a fortress that envelops the bodies that inhabit it.

this workshop is open for MA II year "studi teatrali e coreografici"
